

The Quantum Universe

The Weizmann Institute of Science is soliciting applications for tenure-track faculty positions in the Faculty of Physics from applicants working in the fields of theoretical or experimental astro/particle physics (including Astrophysics, Astroparticle Physics, Particle and High-Energy Physics).

Successful applicants will be supported by the recently inaugurated I-CORE excellence center "the Quantum Universe".

Applicants are invited to contact the Faculty Dean, Prof. Y. Nir, for additional details

The School of Physics and Astronomy at Tel Aviv University invites applications for a tenure-track faculty position in experimental or theoretical particle physics or astroparticle physics. We seek applicants with outstanding scientific accomplishments and demonstrated leadership ability. The successful applicant will be supported by the I-CORE excellence center "the Quantum Universe".

Applicants are invited to contact Prof. Abner Soffer, asoffer@tau.ac.il, for details
